PROFESSIONAL SUMMARY

Undergraduate student in Control and Automation Engineering at UNIFEI, with experience in applied research involving cyber-physical systems, industrial automation, and embedded systems development. Hands-on experience with industrial device integration, PLCs, SCADA systems, and communication analysis using Python, C/C++, and Wireshark. Skilled in experimentation, testing, technical documentation, and solution development within multidisciplinary teams.

EDUCATION

B.Sc. in Control and Automation Engineering Jan. 2022 – Jul. 2028 (Expected)
Federal University of Itajubá (UNIFEI) Itajubá, Brazil

EXPERIENCE

Undergraduate Researcher – Cybersecurity and Critical Systems / Clavis Sep. 2024 – Present

- Conduct research projects involving industrial automation and the integration of PLCs, SCADA systems, and digital platforms.
- Use Python, FUXA SCADA, and Wireshark to develop, test, and experiment with connected industrial and cyber-physical system environments.
- Analyze network traffic and industrial communication protocols to understand system behavior and propose improvements based on experimental results.
- Prepare technical documentation and presentations, and communicate research findings within multidisciplinary teams.

Projects Subteam Member – Fundação Asimo Oct. 2023 – Oct. 2024

- Developed robotics and automation prototypes using Arduino and ESP32 platforms.
- Programmed in C/C++ and integrated sensors, actuators, and communication systems in embedded projects.
- Performed functional testing, identified failures, and implemented prototype improvements in collaboration with the team.

TECHNICAL SKILLS

Programming: Python, C/C++, SQL
Automation and Embedded Systems: PLCs (OpenPLC, CODESYS), SCADA (FUXA, Elipse E3), Arduino, ESP32
Industrial Networks and Communication: OPC UA, Wireshark, Industrial Networking Fundamentals
Tools: Git, GitHub, Microsoft Excel, Word, and PowerPoint

CERTIFICATIONS AND TRAINING

- **Industrial Networking Essentials** – Cisco Networking Academy
- **Junior Cybersecurity Analyst Career Path** – Cisco Networking Academy
- **Elipse E3 – Developer Training** – Elipse Software
- **Scrum Fundamentals Certified** – VMEdu
- **GitHub Foundations** – Microsoft

LANGUAGES

Portuguese: Native
English: Advanced – Advanced reading and writing; intermediate speaking proficiency
